

Vitaliy Kozakevich

Frontend Developer

PROFILE

I am a highly motivated and ambitious front-end developer. I have extensive skills in creating web pages using JS, Redux, React, Html/Css and different developer tools.

Phone number: 380972570774; Email: vitaliy.kozakevich@gmail.com; Telegram: <https://t.me/kozakevich13>

TECHNICAL SKILLS

Languages and Technologies	ES5/ES6, TypeScript, JavaScript, HTML, CSS, Material Design, PrimeReact, Ant Design
Frameworks	ReactJS, React Native, Bootstrap, Redux
CI/CD and administration	Docker, GIT(Github, GitLab)

EXPERIENCE

05/2022 – Present Front-end Developer

Project description:

The platform allows a user to create/edit web sites, online shops, works with templates, etc. Also, this project is a minimally viable product that was developed on the basis of a ready-made solution for bots.

Technologies: HTML, CSS, Bootstrap, Node.js, JSON, React, Redux, TypeScript

Responsibility:

- Implementing new features according to client's requirements
- Development of the main functionality of the shop designer
- Refactoring code
- Bug fixing

12/2021 – 05/2022 Front-end Developer

Project description:

A platform enables clients to easily develop/publish chatbots to web apps, and chat services such as Telegram, Viber, Facebook Messenger, and other popular channels..

The platform gives you tools and modules to easily build a chatbot with any complexity: question-answer; integration with third-party services, etc..

Technologies : HTML, CSS, Bootstrap, Node.js, JSON, React, Redux, TypeScript

Responsibility:

- Refactoring code
- Bug fixing
