Professional Experience

Frontend Developer, *Dev Smile*
Sep 2023 – present
Khmelnytskyi, Ukraine
The platform allows a user to create/edit web sites, online shops, works with templates, etc. Also, this project is a minimally viable product that was developed on the basis of a ready-made solution for bots.

Frontend Developer, *Dev Smile*
Feb 2023 – Sep 2023
Khmelnytskyi, Ukraine
A platform enables clients to easily develop/publish chatbots to web apps, and chat services such as Telegram, Viber, Facebook Messenger, and other popular channels. The platform gives you tools and modules to easily build a chat bot with any complexity: question-answer; integration with third-party services, etc.
